

Packing cherries

This task is about solving maths problems using multiplication and division.

Workers picked **boxes** of cherries in the Heremia's orchard and packed them into **cartons**.

a) Yesterday 3 workers picked 12 boxes of cherries each.

The boxes were then packed into cartons for the market, with 4 boxes in each carton.

How many cartons were packed for the market? cartons

b) If 3 workers picked 16 boxes of cherries each, how many cartons would be packed?

cartons.

c) If 5 workers picked 12 boxes of cherries each, how many cartons would be packed?

cartons

d) If 21 full cartons were sent off to the market, how many boxes were needed to fill all these cartons?

boxes
