# Sharing fruit and vegetables

This task is about equal sharing.

Mr Tetau sorted out the fruit he had picked. He had:

<div align="center">

50 mandarins   20 lemons   38 oranges

</div>

He sorted them into 9 bags of mixed fruit. Each bag had the same number of fruit in it.

a) How many pieces of fruit were in each bag? [   ]

b) Mr Tetau shared all the 50 mandarins as evenly as he could between the 9 bags.
    What was the greatest **whole** number of mandarins in a bag?
    [   ]

c) Mr Tetau also had 60 potatoes and 28 Kūmara.
    He divided these into 9 bags so each bag had an equal number of vegetables in them.
    How many vegetables were left over? [   ]
