

Buying books

This task is about working out the cost of some books.

Samantha wanted to buy some Beatrix Potter books.

a) What would a set of 7 Beatrix Potter books cost her if each book cost \$7.55?

\$

b) If the set had 5 books in it and each book cost \$7.55, how much would the set cost her?

\$

c) If a set of 9 books cost \$65.25, how much would 1 book cost?

\$
