

Close to one

This task is about identifying how close some fractions are to 1.

a) Select **all** the fractions that are **larger** than 1.

☐ $\frac{3}{4}$

☐ $\frac{6}{5}$

☐ $\frac{7}{8}$

☐ $\frac{7}{9}$

☐ $\frac{9}{8}$

☐ $\frac{9}{10}$

b) Explain how you can tell when a fraction is larger than 1.

c) How far away from 1 is each of these fractions?

Write your answer as a fraction.

$\frac{3}{4}$

$\frac{7}{9}$

$\frac{9}{8}$
