

Odd or even numbers

This task is about odd and even numbers.

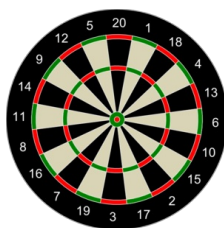

a) Mr Davidson and Mrs Nehana tried to put the children in their classes into pairs.

All of Mr Davidson's children were in pairs.

One of Mrs Nehana's children was not in a pair.

i) Did Mr Davidson have an **odd** or an **even** number of children? *odd/ even*

ii) Did Mrs Nehana have an **odd** or an **even** number of children? *odd/ even*

b) Renee was throwing darts at a dart board. The darts hit these numbers:

6, 11, 2, 14, 7, 1, 18, 10, 15

i) Write all the even numbers that Renee hit.

ii) Write all the odd numbers that Renee hit.

c) i) Is 487 an odd or an even number? *odd/ even*

ii) Explain how you can tell if 487 is odd or even.
