

Odd or even numbers

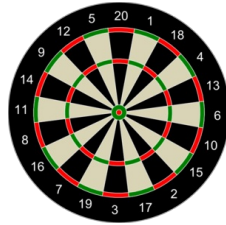

This task is about odd and even numbers.

- a) Mr Davidson and Mrs Nehana tried to put the children in their classes into pairs.
All of Mr Davidson's children were in pairs.
One of Mrs Nehana's children was not in a pair.

i) Did Mr Davidson have an **odd** or an **even** number of children? *odd/ even*

ii) Did Mrs Nehana have an **odd** or an **even** number of children? *odd/ even*

- b) Renee was throwing darts at a dart board. The darts hit these numbers:
6, 11, 2, 14, 7, 1, 18, 10, 15

i) Write all the even numbers that Renee hit.

ii) Write all the odd numbers that Renee hit.

- c) i) Is 487 an odd or an even number? *odd/ even*

ii) Explain how you can tell if 487 is odd or even.
