

Making numbers

This task is about using digits to make numbers.

Lee had cards with digits on them which she arranged to make the 3-digit number **6 1 9**.

a) The cards can be rearranged to make numbers **smaller** than 6 1 9.

Write one smaller number.

b) The cards can be rearranged to make numbers **larger** than 6 1 9.

Write one larger number.

c) What is the **smallest** number that can be made with the three cards?

Write the number.

d) What is the **largest** number that can be made with the three cards?

Write the number.

e) Jill has 3 cards with digits on them.

Write 6 different numbers Jill can make with these digits.
