

Units of time II

This task is about units of measurement for time.

Time can be measured in minutes, hours, days, and years.

Select the unit (*minutes / hours / days / years*) that is best to measure time for each activity.

Activity		Select the best unit of time
a) 	The time it takes to sail around the North Island.	<i>minutes / hours / days / years</i>
b) 	The time it takes for a baby to grow into an adult.	<i>minutes / hours / days / years</i>
c) 	The time it takes a person to eat breakfast.	<i>minutes / hours / days / years</i>
d) 	The time a family spends on a Christmas holiday.	<i>minutes / hours / days / years</i>
e) 	The time spent sleeping in one night.	<i>minutes / hours / days / years</i>
f) 	The time it takes a person to clean their teeth.	<i>minutes / hours / days / years</i>
