

Work, work, work

This task is about doing calculations with time.

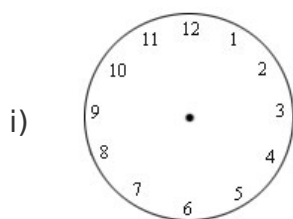

Whaea Elena is very tired and falls asleep at 7:00 p.m. She wakes at 8:30 p.m., and irons for $2\frac{1}{4}$ hours.

She goes to bed immediately and sleeps until 6:30 a.m. the next morning.

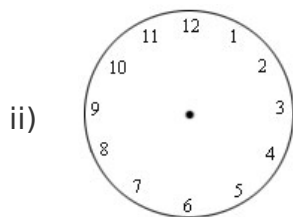

a) What time did Whaea Elena finally go to bed? _____

b) Draw the hands on the three clock faces below to show:

the time Whaea Elena started ironing

the time Whaea Elena finished ironing

the time Whaea Elena woke up in the morning
