

# Sending envelopes

This task is about using a smaller shape to work out the area of a larger shape.

a) Which of the 3 shapes above (**A**, **B**, **C**) would be the **best** to measure the area of the envelope? (*select one*)

**A / B / C**

b) Explain your reasons for your choice in a) in the space below.

---

---

---

c) Show how to work out the area of the envelope.

Area: \_\_\_\_\_
