## How much to fill it?

This task is about identifying the capacities of everyday objects.

These questions are about how much a container can hold.

a) About how much milk would fill this milk bottle?

b) About how much ice cream would fill this ice cream container?

c) About how much water would fill this this plastic bucket?

| O 1 litre | O 10 litres | O 50 litres |
| :--- | :--- | :--- | :--- |
| 0100 litres | 01000 litres |  |
