This task is about measuring length and using a scale.

Plan of Gary's garage

Scale: 15 mm represents 1 m

Use the plan and the scale of 15 mm to 1 m to calculate the actual measurements of Gary's garage.

a) Length of the garage (105 mm on the plan) metres.
b) Width of the garage (60 mm on the plan) metres.
c) Length of the workbench (36 mm on the plan) metres.
d) Width of the workbench (12 mm on the plan) centimetres.
