

Looking at length

This task is about estimating, then measuring, length.

You will be given a pencil and a book to measure. First, estimate the length of each item then measure it and record your answers.

a) About how many millimetres long is the pencil? (*Select one*)

<input type="radio"/> 75 mm	<input type="radio"/> 125 mm	<input type="radio"/> 175 mm	<input type="radio"/> 225 mm
-----------------------------	------------------------------	------------------------------	------------------------------

b) About how many millimetres long is the exercise book? (*Select one*)

<input type="radio"/> 255 mm	<input type="radio"/> 295 mm	<input type="radio"/> 335 mm	<input type="radio"/> 375 mm
------------------------------	------------------------------	------------------------------	------------------------------

c) Measure the length of the pencil and the length of the exercise book using the ruler.
Write your measurements in the table below.

Object	Measurement
pencil	<input type="text"/> mm
exercise book	<input type="text"/> mm
