

Inches and centimetres

This task is about converting between inches and centimetres.

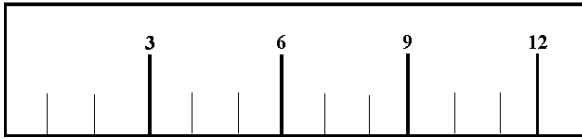

Maxine was helping her Grandad build a mouse cage. His plans were in inches, but Maxine liked using centimetres.

Maxine compared her ruler with her Grandad's.

Maxine's ruler
Centimetres

Grandad's ruler
Inches

[NOT DRAWN TO SCALE]

Using the rulers above, help Maxine convert each of these measurements.

a) 12 inches = centimetres

b) 15 centimetres = inches

c) 10 inches = centimetres

d) 10 centimetres = inches

e) 3 inches = centimetres

f) 24 inches = centimetres

g) 45 centimetres = inches
