

# Measuring the extension

This task is about working out perimeter and area.

The Henare whānau have their cousins coming to live with them. They are building an extension and the rest of the section is grass.

- What was the area of the original cottage?  m<sup>2</sup>
- When only the cottage was on the section, what was the area of grass to mow?  m<sup>2</sup>
- What was the total area of the house when the extension was put on?  m<sup>2</sup>
- What is the perimeter of the Henare home now?  m
- How much grass is there left to mow now?  m<sup>2</sup>
