# Turning the shape

**This task is about rotation of a shape.**

**Practical task**

For each question below, start by holding your shape on top of the one that is drawn.

a)   Turn your cardboard shape a $^1/_2$ turn clockwise and draw what it looks like now.

b)   Turn your cardboard shape a $^1/_4$ turn anticlockwise and draw what it looks like now.

c)   i)   Turn your cardboard shape a 1/4 turn anticlockwise and then a 1/2 turn clockwise. Draw what it looks like now.

ii)   What is another way of describing how you could turn your shape so it ends up looking like this?

_____

_____
