

## Figure the pattern

**This task is about identifying transformations.**

Gina created some koru patterns using the single koru she had designed.

Identify the type of transformation she did not use to create each pattern.  
The first one has been done for you.

In this first pattern she used translation and reflection.

She **did not** use **rotation**.

a)

She **did not** use *Rotation / Reflection / Translation*

b)

She **did not** use *Rotation / Reflection / Translation*

c)

She **did not** use *Rotation / Reflection / Translation*
