

Symmetrical pattern

This task is about symmetry and reflection.

Practical task

Tim folded a piece of paper in half and cut some shapes out.

When he unfolded the paper it looked like this:

What to do

- Fold your piece of paper in half length-wise.
- Next to the folded edge draw the lines you would need to cut around so that when you opened the paper it would look like Tim's.
- **Show your paper to your teacher**, and then cut out the shapes you have drawn.
