

Constructing Ziggurats

This task is about constructing and drawing a model using isometric paper.

How to do this task

In ancient times people built step pyramids called ziggurats.

a) Here is a three block high ziggurat as viewed from one corner.

Use the diagram above to help you build a four block high ziggurat from blocks. Show your teacher what you have constructed before continuing.

Teacher check:

b) On the isometric paper below, draw your four block high ziggurat as viewed from one corner.
