

# Painting car parks

This task is about working out unknown angles.

Jasmine was painting car park lines on the ground at her school. Each line was painted parallel to the others and against a wall.

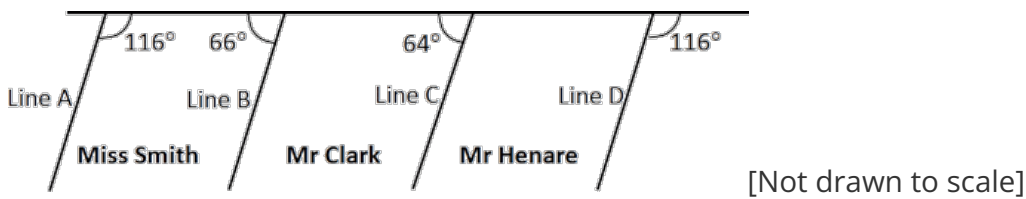

- a) Firstly she painted the lines in the main carpark.  
Use your knowledge of angles to work out the marked angles in the carparks below.  
Give a reason for each of your answers.

i) a =  °  
Reason:

ii) b =  °  
Reason:

- b) Jasmine made a mistake and painted the lines in the maths department carpark so that one line was not parallel to the other lines.  
Use your knowledge of angles to select the line which is not parallel.
