

# Different views III

---

This task is about drawing views of objects from different angles.

## Practical Task

Your teacher will show you some objects.  
Draw these in the following pages.

a) In the boxes below draw what **object A** looks like when you view it from the **top** and then draw it again when you view it from the **front**.

Viewed from the top	Viewed from the front

b) In the boxes below draw what **object B** looks like when you view it from the **top** and then draw it again when you view it from the **front**.

Viewed from the top	Viewed from the front

c) In the boxes below draw what **object C** looks like when you view it from the **top** and then draw it again when you view it from the **front**.

Viewed from the top	Viewed from the front

d) In the boxes below draw what **object D** looks like when you view it from the **top** and then draw it again when you view it from the **side**.

Viewed from the top	Viewed from the side

e) In the boxes below draw what **object E** looks like when you view it from the **top** and then draw it again when you view it from the **side**.

Viewed from the top	Viewed from the side
