

Without looking

This task is about the properties of 3-D shapes.

Practical task

Your teacher will set up four bags (A, B, C, D) with a shape in them.

a) Without looking, put your hand inside Bag A and feel the shape.

Answer these questions about the shape. You may draw the shape if it helps you.

- i) How many corners does this shape have?
- ii) How many faces does this shape have?
- iii) What is the name of this shape?

b) Without looking, put your hand inside Bag B and feel the shape.

Answer these questions about the shape. You may draw the shape if it helps you.

- i) How many corners does this shape have?
- ii) How many faces does this shape have?
- iii) What is the name of this shape?

c) Without looking, put your hand inside Bag C and feel the shape.

Answer these questions about the shape. You may draw the shape if it helps you.

- i) What is the name of this shape?
- ii) Name something you might see or use that is like this shape.

d) Without looking, put your hand inside Bag D and feel the shape.

Answer the questions about the shape. You may draw the shape if it helps you.

- i) What is the name of this shape?
- ii) Name something you might see or use that is like this shape.
