

Travel times

This task requires calculating travel times on a network map.

The map above shows the time it takes (in hours) to travel between each town. For example, it takes 5 hours to go from Westtown to Abra.

a) i) How long does it take to travel from Abra to Po? hours

ii) How long does it take to travel from Cadab to Cuss and then to Eastville? hours

b) Taking the **quickest** way, how long does it take to go from Ra to Eastville? hours
