# Describing shapes

This task is about identifying and describing 2-D shapes

Benito was describing different shapes.
Using the shapes above, write down the letter of each shape that has been described.

i)   "This shape has **5** corners and **all** sides are the same length". Shape [ ]

ii) "This shape has **4** corners and **no** sides are the same length". Shape [ ]

iii) "This shape has **3** corners and only **2 sides** are the same length". Shape [ ]

b)   Benito then drew this shape. ⬡

i)   Using the words **corners** and **sides** write down how the shape should be described.

[   ]

ii) What is the name of this shape? [ ]
