

Making a pyramid

This task is about creating a net and making a 3-D shape.

Practical Task

Make a model of the pyramid shown in the diagrams below.

[Not drawn to scale]

- . Make the model using cardboard.
- . Use a compass and ruler to make sure all your measurements are correct.
- . Cut the net pattern out in one piece and fold it to make a pyramid.
- . Use sellotape to stick your pyramid together.
