

Counting cubes

This task is about working out the number of cubes needed and then making the models.

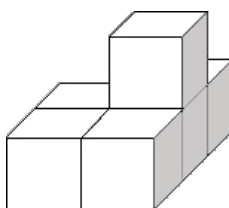

For each question,

1. write down the number of cubes you would need to make each model shown,
2. then use the multi-link cubes to make each model.

- a) i) Write down the number of cubes that are needed to make the model shown above.

- ii) Use multi-link cubes to make the model.

- b) i) Write down the number of cubes that are needed to make the model shown above.

- ii) Use multi-link cubes to make the model.
