

Whale watching

This task is about grid references.

Tourists are whale watching from a boat which is shown in the centre of the grid below. The tour guide saw a whale at the position labelled "W" which was at 2 o'clock and 30 metres away from the boat.

- a) Another whale was seen at 7 o'clock, 20 metres away from the boat.
Move the whale onto the grid to show this position.

- b) Dolphins were also seen at the points labelled D1 and D2. What are their positions?

i) D1: o'clock, metres

ii) D2: o'clock, metres
