

## Hands of a clock II

---

This task is about identifying times on a clock.

What is the time if the large hand of the clock is **always** pointed at the 12, and the hands of the clock make different angles?

a)  $180^\circ$ ?  o'clock

b)  $90^\circ$ ?  o'clock

c)  $60^\circ$ ?  o'clock

d)  $30^\circ$ ?  o'clock
