

# How to work out the answer

---

**This task is about thinking about how to find the answer for some maths problems.**

Work out the answers to each of the following problems and write them in the boxes.

a) i)  $25 + 16 - 16 =$

ii)  $28 + 36 - 36 + 52 - 52 =$

iii)  $62 + 74 - 62 =$

iv)  $78 - 44 + 44 =$

v)  $67 + 23 + 55 - 23 - 67 =$

b) Explain what you did to work out the answers. You can use one of the above problems to demonstrate what you did.
