How to work out the answer

This task is about thinking about how to find the answer for some maths problems.

Work out the answers to each of the following problems and write them in the b	oxes.
--	-------

a) i) 25 + 16 - 16 =

b) Explain what you did to worl	k out the answers. You ca	an use one of the above pro	blems to
demonstrate what you did.
