

# Complete the equation

---

**This task is about finding missing numbers in addition and subtraction equations.**

For each problem below, record your answer in the box. Show or explain how you got your answer in the space provided.

a)  $67 + 38 - 67 = \square$

This is how I got my answer:

b)  $37 - 37 + 86 + 19 - 19 = \square$

This is how I got my answer:

c)  $71 - 53 + 53 = 28 + \square - 28$

This is how I got my answer:

d)  $95 + 58 + 23 - \square - 95 = 68 + 23 - 68$

This is how I got my answer:
