

## Looking at zero II

---

This task is about what happens when you use zero when adding or taking away.

Look at each number sentence. Select if it is **True** or **False**.

a)  $8 + 0 = 8$                       *False / True*

b)  $11 - 11 = 11$                       *True / False*

c)  $0 + 95 = 0$                       *True / False*

d)  $53 - 0 = 53$                       *True / False*

e)  $50 + 0 = 500$                       *True / False*
