

Equality

This task is about understanding the meaning of the equals sign.

Look at each of the number sentences below. Select whether it is True or False or Not a proper number sentence.

- a) $8 + 5 = 13$ *True / False / Not a proper number sentence*
- b) $15 = 6 + 9$ *True / False / Not a proper number sentence*
- c) $4 + 9 = 13 + 6$ *True / False / Not a proper number sentence*
- d) $9 + 8 = 7 + 10$ *True / False / Not a proper number sentence*
- e) $12 + 5 = 17 + 2$ *True / False / Not a proper number sentence*
