

Algebra addition squares

This task is about working with the addition of algebraic expressions.

Fill in the boxes in the order they are numbered, so that each row and column equals $6a - 3b$ when the expressions in it are added.

$3a - b$	$a - 2b$	1.	$6a - 3b$
a	2.	$3a - 2b$	$6a - 3b$
3.	4.	5.	$6a - 3b$
$6a - 3b$	$6a - 3b$	$6a - 3b$
