

Addition squares II

This task is about using problem solving strategies to solve a number square.

1	2	3	4	5	6
---	---	---	---	---	---

Fill in the squares in the boxes below, using only the numbers above, so that

- the numbers **across** each row sum to the total at the end of the row, **and**
- the numbers **down** each column also sum to the total at the bottom of the column.

Use only the numbers at the top of the page.

The same number can be used more than once in each question.

	6	2		9
		6		13
			6	15
Total	14	12	11	

Total

	6			15
		4		9
			1	8
Total	13	10	9	

Total
