

Baby weight

This task is about reading information from a line graph.

- a) How much did the baby weigh at 4 weeks? kg
- b) How much did the baby weigh at 8 weeks? kg
- c) If the baby grew at the same rate, how much would it weigh at 14 weeks? kg (Give your answer to the nearest 0.1 kg)
- d) What was the baby's average weekly growth rate over the first 12 weeks? kg/week (Round to 1 decimal place.)
