

Getting to school

This task is about reading information from a graph.

The graph above shows the different ways three children got to school one day.

a) Use the graph to write a possible description for each child's journey to school.

The first one has been done for you.

Siaonofu ... was taken to school in the car. The car went straight from home to school and didn't stop or slow down.

i) Sarah ...

ii) Maraea ...

b) Write **two** statements that compare the different children's journeys.

1.

2.
