

Animal race

This task is about reading information from a graph.

There was once a race between a rabbit, a cat, and a dog. The graph below shows how fast they ran.

Complete each of these sentences by choosing the correct name of one of the three animals.

- At 20 minutes into the race, the *dog* / *cat* / *rabbit* was running the slowest.
- The *dog* / *cat* / *rabbit* stopped for a rest during the race.
- The *dog* / *cat* / *rabbit* ran at about the same speed throughout the race.
- The *dog* / *cat* / *rabbit* got faster as the race went on.
- The *dog* / *cat* / *rabbit* reached the fastest speed during the race.
