

Crawling spider

This task is about reading information from a line graph.

A spider is crawling up a window. The graph above shows its progress.

- How far up the window does the spider begin? _____ cm
- If the spider continues on in the same way, complete the graph above to show its progress.
- Find out the highest point on the window it reaches, and the time when this occurs.
 - Highest point _____ cm
 - Time _____ minutes
- Describe in your own words how the spider is moving.

- How fast is the spider going when it is moving up the window? _____ cm/min
