

# Jack's cows

This task is about reading maths information from a comic strip.

## Questions

- What is the farmer asking you to do?
- What information does he give you to work this out?
- What information does he give you that you don't need for working out the answer?

The farmer wants to know how many cows there will be in the yard.

- How would you work out the answer?
- Now try to work out the answer. You can use a pencil, calculator, or a piece of paper.
- What is the answer?
