

Working with numbers II

This task is about using addition and division to solve story problems.

Bus seats: 55

Room 1: 24 children

Room 2: 26 children

a) Room 1 and Room 2 need a bus for a school trip.

i) Would the bus be big enough for all the children to have a seat? *Yes/ No (Choose one)*

ii) Write down how you worked this out.

b) One box has enough for 5 people.

i) How many boxes will be needed for 30 people? boxes

ii) Write down how you worked this out.
