

Torch parts

This task is about explaining what the different parts of a torch do.

Look at the torch you have been given, you can open it, examine the batteries and the inside.

a) Explain how the batteries of the torch allow the torch to work or make it useful.

b) Explain how the switch of the torch allows it to work or makes it useful.

c) Explain how the reflective collar of the torch allows it to work or makes it useful.

d) Explain how the bulb of the torch allows it to work or makes it useful.

e) Explain how the plastic casing of the torch allows it to work or makes it useful.
