1

This task is about things that float.

- a) Do you think each object will float or sink?Write the name of the object in column A and "yes" or "no" in column B.
- b) Try putting **each of the objects** in water to see if they float. Write your results in the table in column C.

A. Name of object	B. Do you think it will float? Yes/No	C. Did it float? Yes/No

c) What are **two** reasons why these things in column C float?
