

A car journey

This task is about interpreting a distance-time graph.

Susan and Mei went to town by car. The graph shows their journey.

Describe each section of their journey in words. Compare their speeds in each section to other parts of the journey. The words in the box might help you.

**stopped constant
speed acceleration slowing down
faster than slower than**

a)i) _____

ii) _____

iii) _____

iv) _____

v) _____

Use the following paragraph to draw lines to complete Susan and Mei's journey on the graph above.

b)

... After shopping they got back in their car and drove back home along the motorway. They drove faster than at any time on the way to town.
