

## Here's looking at you

---

**This task is about reflection on different surfaces.**

Look at your reflection on the back of a spoon and in the mirror. Move the spoon or mirror close to your face and then far away.

a) i) Look at your reflection in the flat mirror. Describe your reflection.

a) ii) Look at your reflection on the back of a spoon. Describe your reflection.

b) What caused the two reflections to be different?
