

# Illustrating the enhanced greenhouse effect

This task is about interpreting a science cartoon about the enhanced greenhouse effect.

These two pictures convey an important idea about the greenhouse effect.

a) In this context, "enhanced" means:

- to make something better
- to increase an effect
- to clarify something
- to create something new.

b) What "message" about the greenhouse effect is the artist giving us?  
Explain this message in a short paragraph.
