

Planting trees for the environment

This task is about how tree planting can help the environment.

The first photograph shows an area before a tree planting programme was started, and the second photograph shows the same area 5 years later.

Before tree planting programme

5 years later

a) Look carefully at the photographs. What is different after 5 years?

b) Your local newspaper wants you to write an article about how tree planting helps the environment. Write a paragraph about this which you could hand in to your local newspaper.
