

# Saving the bank

This task is about writing a plan to solve an erosion problem.

The bank on the school field is beginning to show signs of erosion. You talk to the Principal about saving the bank. The Principal asks you to write a plan for a tree-planting programme to slow down the erosion.

Write out a plan that begins with getting a group of interested students together and ends with the successful planting and growing of trees.

Write your plan for a tree-planting programme below.
