

A wildlife reserve

This task is about creating a wildlife reserve.

A wildlife reserve has been suggested for the area marked on the map. A fence, shown by the dashed line, is to be built around the edge of the reserve.

- a) Someone said they should include part of the river in the reserve. Why would this be a good idea?

- b) Why does the reserve include areas of scrub and swamp as well as native bush?

- c) Why would a fence be built around the reserve?

- d) How do reserves benefit animals and plants?
