

A wildlife reserve

This task is about creating a wildlife reserve.

A wildlife reserve has been suggested for the area marked on the map. A fence, shown by the dashed line, is to be built around the edge of the reserve.

a) Someone said they should include part of the river in the reserve.
Why would this be a good idea?

b) Why does the reserve include areas of scrub and swamp as well as native bush?

c) Why would a fence be built around the reserve?

d) How do reserves benefit animals and plants?
